DISCOVER THE *CAMBRIA* *DIFFERENCE*

For decades, we have been committed to delivering timeless beauty and enduring strength with every American-made quartz surface we design. As a family-owned company of dedicated artisans, we share an unshakable pride in bringing your vision to life.

FAMILY OWNED, AMERICAN MADE

We are proudly family owned and American made. Through hard work and uncompromising values, our artisans meticulously design quartz surfaces of the highest standards.

VISIONARY DESIGN

Every Cambria surface begins with creative vision, innovation, and endless possibilities to create unique designs that inspire and elevate every space.

PERFORMANCE PERFECTED

We sustainably harvest exceptionally pure quartz to design surfaces that ensure lasting performance, easy care, and satisfaction that never expires.

SUPERIOR SERVICE

We deliver the highest level of service, a transferable Full Lifetime Warranty, and expert support to ensure your trust and always exceed your expectations.

HIGH-QUALITY QUARTZ

We start with exceptionally pure quartz harvested from our own mine. Its superior clarity allows pigment to permeate throughout each design with unparalleled vibrancy, producing the most defined patterns, crisp colorways, and distinct veining imaginable.

The exceptional strength of Cambria quartz designs comes from our proprietary manufacturing process wherein naturally hard and exceptionally pure quartz is combined with only the smallest amounts of pigment and binding agent necessary—and nothing else. This process creates highly durable surfaces that resist scratches, chips, and stains.

We also follow thoughtful, sustainable mining and manufacturing practices to elevate any space while respecting the earth. From mine to market, our high standards for purity, clarity, and sustainability are evident at every step.

INNOVATIVE DESIGNS

We offer the broadest and most innovative design palette in the industry, with new designs added regularly.

MAINTENANCE FREE AND STAIN RESISTANT

Cambria surfaces will never need sealing, reconditioning, or polishing. Simply wash with warm water, a soft cotton cloth, and mild soap, if desired. They are also nonabsorbent, so spills won't become stains.

SUPERIOR SERVICE

We are committed to providing the best experience in the industry. From first look to final touch, our extraordinary service lasts long after installation.
