TOP-RATED ENTRY DOORS

COMPLETE DOOR SYSTEM

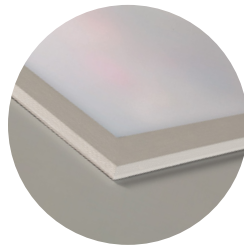

Built for Performance and Security. The Waudena door system is designed to deliver lasting durability and protection. It enhances the home's curb appeal while offering reliable performance and peace of mind, ensuring the entryway is beautiful and secure.

INSULATED CORE

SM, SS, BF, CF, FF

The polyurethane foam core improves soundproofing and protects against heat loss or gain, making your home more energy efficient.

ZEEL GLASS FRAME

SM, SS, BF

The low-profile frame blends seamlessly into the door, and the innovative clip system ensures a clean look without screws or caps. It maintains a weathertight seal for the life of your door.

DURABLE DOOR FRAMES

SM, SS, BF, CF, FF

Our door systems include durable, low-maintenance frames that deliver long-lasting, rot-free performance. These frames ensure your entryway remains both functional and stylish.

BALL-BEARING HINGES

SM, SS, BF, CF, FF

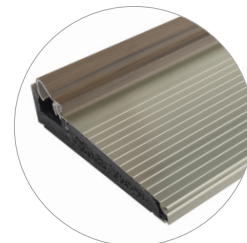

Reduces door squeaking and eliminates grinding dust. T-nuts behind the hinges on wood jambs prevent the door from sagging over time.

ADJUSTABLE HINGE PLATE SYSTEM

SM, SS, BF, CF, FF

Easily adjusts the door up/down and in/out within the frame. Ensures a perfect fit for optimal performance and weather sealing, fixing gaps, and providing smooth door closing.

AUTO-ADJUSTING SILL

SM, SS, BF, CF, FF

The Z-Articulating Cap Sill® automatically adjusts to protect against leaks, drafts, and insects. It withstands wind and water, preventing rotting, warping, or deterioration over time.

DOOR SERIES AVAILABILITY

SM = Cambridge Smooth Steel
SS = Norwood Textured Steel

BF = Weston™ Brushed Smooth Fiberglass

CF = Timbergrain Fiberglass in Cherry

FF = Timbergrain Fiberglass in Fir (available in 3/0 width only)

DOOR SERIES

First impressions matter. Our exterior door selection is designed to provide curb appeal to your home while providing maximum protection to your entryway.

CAMBRIDGE SMOOTH STEEL

Cambridge Smooth Steel doors are designed for strength, security, and durability. This premium, insulated door system is constructed with a full steel-edge perimeter that offers additional strength and the industry's highest security rating.

NORWOOD TEXTURED STEEL

The warmth of wood meets the strength of steel with the Norwood series. These textured steel doors are constructed with a deeply embossed Oak grain surface, providing a realistic wood appearance.

WESTON™ BRUSHED SMOOTH FIBERGLASS

Sophistication and durability define the Weston Brushed Smooth Fiberglass door series. Crafted with meticulous attention to detail and cutting-edge technology, Weston redefines elegance and performance for your home's entryway.

TIMBERGRAIN FIBERGLASS

Timbergrain Fiberglass doors bring timeless beauty and warmth to your entrance with their realistic wood look. These doors combine the classic charm of natural wood with the durability and low maintenance of fiberglass.

Discover style and quality with Waudena® Entrance Systems. Elevate your home's entrance with exceptional craftsmanship and lasting beauty.
